NICE TO
E-MEET YOU!

My name is **Francesco Brocchieri**, aka Ske.

I'm an Italian Product Designer currently based in **Milan**.
I design digital experiences for real people. And cool visual stuff :)

I got a bachelor's degree in **Communication Design** at the Milan Design Faculty and the
UX/UI Design certificate at Melbourne University (RMIT).

My knowledge has been shaped through years of experience in Visual, Brand, Motion,
Digital and UX Design. Long story short: **I love good design, where good stands for invisible.**

In early 2020 I decided to move to Melbourne and then to Brisbane.
This change has been a big improvement in my mindset. Approaching new and different
points of view gives me the opportunity to build a new background, stronger and more
holistic.

I recently moved back to Milan, bringing with me all my new knowledge and my
enthusiasm.

I'm really keen to start a new adventure wherever a company need to tighten the screws
of their products.

I look forward to meeting with you.
Should you need to contact me, you can reach me at:

if you want to see new awsome jobs I've been working on, just ask me!

CONTACTS

hello@francescobrocchieri.com
+ 39 349 8052304

Hello there

take a look at my portfolio:
www.francescobrocchieri.com

I wasn't supposed to look for another job as I've been working for Boom for just 3 months but they told me to start looking around because the second fundraising is not going as expected. So, my portfolio is not 100% updated yet.

I've been collecting some recent tasks I worked on to show you my process and my style. Enjoy!
